	Registration Deadline:	March 22, 2024

Visit the German companies at the Bavarian Pavilion Hall D 250 at Smart Factory + Automation World

E-T-A Elektrotechnische Apparate GmbH	Haimer GmbH	Maincor Rohrsysteme GmbH & Co. KG
Sensodrive GmbH	STÖGER AUTOMATION GmbH	WEBER Schraubautomaten GmbH

More information about the Bavarian companies

We are a leading manufacturer of energy efficient electrical drive and automation systems.

International market consulting, import/export, digital marketing, sales, projects, process optimization.

HAIMER customers machine more precisely, more reliably, more productively - and also reduce the wear of tools and machine tools

Machine tools, machine automation, innovation, quality service

Cable protection solutions & premium plastic pipes for construction and industrial applications

The patented, ultra-precise torque sensor technology is the heart of the SensoJoint – a ready-to-install complete drive that makes the development of custom robotics solutions faster and more efficient than ever before.

Middleware for IoT/ IIoT, integration software, horizontal and vertical data integration.

Creating customized automatic fastening solutions with feeding systems.
