Free State of Bavaria
Office for Business Development in Egypt

THE BAVARIAN BUSINESS OFFICE IN EGYPT

Through the Bavarian Business Office in Egypt, you can learn more about your business opportunities in Bavaria and Egypt. We support Bavarian companies and organizations by providing opportunities for economic exchange and networking with local business partners in Egypt. At the same time, we help Egyptian companies in doing business with Bavarian companies and expanding their business in Bavaria.

THE BAVARIAN BUSINESS OFFICE IN EGYPT

Karin Elshafei

Deputy CEO

& Representative of the Free State of Bavaria for Egypt

German-Arab Chamber of Industry and Commerce (AHK Egypt)

28 Nile Cornich, Sama Tower 1, 2nd floor, Maadi,
Cairo 11728, Egypt.

Spatial Computing, AI, and Extended Reality (XR)

Operating for over a decade since the commercial birth of XR in 2016, 5dVR is a global immersive technology leader shaping the future of digital presence. From Cairo to the world, we create and scale VR, AR, MR, and AI-powered experiences.

With a strong international footprint, we service partners in the UK and Denmark, delivering highly specialized projects across the globe. We are strictly technology-agnostic, delivering across the entire spectrum of hardware, and sector-agnostic, seamlessly spanning entertainment and enterprise verticals.

We are guided by one belief: digital experiences should not fade when the moment ends, but remain present, growing deeper and more meaningful over time.

This vision comes to life through our existing capabilities:

- **Immersive XR Worlds:** Environments designed as digital spaces where presence takes form.
- **AI-Powered Avatars:** Intelligent virtual characters capable of responsive role-playing, dynamic training, and informative user interaction.
- **Training & Simulation:** Safe spaces designed for learning, rehearsal, and decision-making without real-world risk.
- **360° Capture:** High-fidelity photography and videography that grounds digital worlds in real environments.

Our team specializes in delivering custom AR, VR, and MR solutions designed to meet the exact needs of your business, effectively enhancing marketing, improving training programs, or creating engaging customer experiences.

BADGEWELL

**Ahmed El-Boukhary,
Managing Director**

ahmed.elboukhary@badgewell.com

www.badgewell.com

131 Continental Drive, Newark, Delaware, US
Software Development & IT Services

Badgewell is a nearshore software delivery partner for German and EU companies, combining EU presence with access to Egypt's high-quality technical talent since 2019. We deliver solutions across AI, data engineering, enterprise software, web/mobile, and game and XR development, with more than 20 countries served and over 40 projects delivered across diverse industry sectors including financial services, consumer services, energy and technology.

We provide flexible engagement models including end-to-end delivery, dedicated squads, and staff augmentation, aligned with German and EU business culture, quality expectations, regulations, and delivery standards. We operate through an EU-ready structure with an Estonian entity and a delivery hub in Egypt.

Capability pillars include:

- **AI & Data Science:** Predictive analytics, automation, AI-assisted workflows, decision-support tools
- **Data Engineering & BI:** Data pipelines, ETL processes, dashboards, reporting, and cloud analytics
- **Enterprise Software:** ERP modules, workflow systems, internal platforms, integrations
- **Web & Mobile:** Customer platforms, mobile apps, portals, SaaS products, API integrations
- **Game, 3D & XR:** Unity development, 3D environments, gamified applications, immersive prototypes
- **Dedicated Teams:** Frontend, backend, QA, DevOps, UX/UI, project management support

Get in touch with us to support you scale efficiently through flexible teams, specialized expertise, and reliable end-to-end delivery.

CONTENTME DIGITAL

Samar Abou Elkheir,
Managing Director

samar.abouelkheir@contentme.co

www.contentme.co

3 Ali Ibrahim Ramez, El-Nozha, Cairo- Egypt
Content Creation Agency

ContentME is a Cairo-based digital content and communications agency and a trusted partner for multinational organizations managing global B2B communication operations. We specialize in content production, video, social media management, localization, CMS and website management, and integrated digital campaigns; delivering at scale across MENA markets and supporting clients with operations bridging MENA and DACH regions.

We are certified under ISO 9001 (Quality Management) and ISO 10002 (Customer Relationship Management), and operate in full compliance with GDPR requirements, applying responsible AI governance practices aligned with EU regulatory standards — making us a reliable partner for European organizations with stringent governance expectations.

Among our long-standing clients is Knauf, the global building materials manufacturer (since 2016), including an active international campaign across 16+ countries for Knauf AQUAPANEL. ContentME is also an active participant in the Business with Germany programme.

We are seeking partnerships with Bavarian IT and MarTech companies to collaborate on CMS solutions, portal management, and video content production and with industrial companies looking for a reliable, experienced partner to elevate their B2B communication and content operations across global markets.

55 Elsheikh Ahmad Eldawy St., Nasr City, Cairo, Egypt
Software Development & Business Services

Croco IT is an Egypt-based technology company delivering AI-powered business solutions, custom software development, mobile applications, eCommerce and ERP integrations, and advanced hosting and cloud solutions. We help companies design, build, and scale practical digital solutions that improve operational efficiency, customer experience, and business performance.

With strong experience in business-driven technology implementation, Croco IT supports clients through consulting, architecture, development, integration, deployment, and ongoing support. Our work focuses on turning digital transformation and AI adoption into practical, measurable business value.

Croco IT also develops its own digital products, including 2 Loyal, a loyalty management platform; ARTRIXX, a virtual try-on makeup SaaS using computer vision, augmented reality, and AI; a PWA mobile app template for Magento; an AI content generator for eCommerce bulk content creation and optimization; and image-based product search technology for improved shopping experiences.

For the Bavaria IT Delegation, Croco IT is particularly interested in strategic technology partnerships, implementation collaboration, nearshore/offshore delivery, and joint solution development with German companies in AI, cloud, enterprise software, eCommerce, and digital innovation.

CYBER FORCE LLC.

Ahmed Amin,

7 Mustafa Refaat St., Sheraton, Cairo, P.O. Box 11799,
Egypt
Cybersecurity Services & Consulting

Cyber Force is a Cairo-based cybersecurity company serving clients across Egypt, Saudi Arabia, the Gulf, and Europe. We act as an extension of our clients' security organizations, turning cyber risk into resilient operations through senior-led teams that integrate governance, engineering, and 24x7 response. Our teams have delivered across regulated banking, telecom, insurance, government, and defense environments.

Our portfolio spans:

Cyber Risk, GRC & Regulatory: risk assessments, regulatory mapping, compliance programs, third-party risk management, and audit readiness, aligned with EU regulations (GDPR, DORA, NIS2) and global and regional standards (ISO 27001, SOC 2, NCA ECC, FRA).

Offensive Security & Assurance: vulnerability assessments and penetration testing (web, API, mobile, cloud, network, wireless, and identity), red and purple teaming, adversary simulation, social engineering, and configuration/CIS benchmark reviews.

24x7 Threat Detection & Response: managed detection, threat hunting, incident response, and exposure monitoring.

Advisory & Engineering: CISO advisory, Secure Architecture, Zero Trust design, cloud security, DevSecOps, plus Cyber Education through training, tabletop exercises.

Cyber Force is ISO/IEC 27001:2022 and ISO 9001:2015 certified and NTRA-accredited — a trusted partner for organizations seeking senior-led cybersecurity expertise, EU-aligned compliance, and high-quality managed security services delivered with practical business understanding.

Business Applications, Digital Transformation & Industrial
Integration

Elite Business Solutions (EBS) is a Microsoft Solutions Partner specializing in cloud technologies, business applications, industrial integration, and digital transformation. Established in Cairo, Egypt, in 2014 and backed by more than 25 years of combined industry expertise, EBS helps organizations optimize operations and accelerate growth through innovative Microsoft-based solutions.

With over 350 successful projects delivered to more than 130 clients across 14 countries, EBS serves organizations throughout the Middle East and Africa. Our expertise spans Microsoft Dynamics 365 ERP and CRM, Power Platform, business intelligence, system integration, change management, and end-to-end digital transformation services.

EBS has extensive experience integrating enterprise systems with factory equipment through SCADA platforms, enabling real-time production monitoring, operational visibility, and data-driven decision-making. We also integrate electricity meters and energy management systems with business applications to provide comprehensive insights into energy consumption, production efficiency, and power productivity, supporting sustainability and cost optimization initiatives.

In addition, EBS has developed a portfolio of industry-focused solutions and add-ons that extend Microsoft Dynamics 365 capabilities and address regional business requirements. Our combination of business expertise, industrial integration capabilities, and advanced technologies enables organizations to achieve operational excellence and sustainable growth.

5 Dr.Ali Ibrahim Ramez St, 8th floor Heliopolis,
Cairo, Egypt

Full-Service Software, eCom & AI Development
Agency

Founded in 1998 in Cairo, e-motion Digital Creations Solutions Agency is a veteran software and digital solutions provider. We specialize in building enterprise-level digital ecosystems, blending artistic creativity with technological innovation.

From concept to launch, we manage the entire development lifecycle. We are enterprise partners to serious e-commerce and retail brands, delivering robust platforms driven by our flagship SaaS, Gromart, alongside Shopify, Magento, WooCommerce, and custom Node.js solutions. Beyond e-commerce, our vast engineering scope covers complex web and mobile architecture, ranging from simple automations to advanced airline booking systems. We combine this technical expertise with intuitive, user-centric UI/UX design, an area where we hold a celebrated history of industry awards.

We are actively seeking long-term partnerships with German companies looking for a dependable technology partner. We bring decades of international experience, agile delivery, and a commitment to quality that meets European standards, helping clients streamline operations and grow through scalable technology.

ROBUST ICT

Rami Sharaf,
CEO

r.sharaf@robustict.com

www.robustict.com

2 Almaza street, Heliopolis, Cairo Governorate
Infrastructure Solutions

With over 7 years of proven experience in the Egyptian market, Robust ICT is a specialized IT distribution company delivering resilient infrastructure solutions across Hospitality, Data Centers, Digital Transformation and Railway projects. We have built a solid reputation as a trusted technology partner across enterprise, government and industrial sectors.

We provide a complete stack of ELV products, sourced exclusively from world-class vendors and backed by deep technical knowledge. Our scope includes Server Racks, Network Switches, CCTV Systems, UPS Systems, Intelligent PDUs, Structured Cabling, Access Control, IP Telephony, Outdoor Cabinets, Containment, Labelling Solutions and Cooling Systems.

What began as a strong foundation is now stepping into a new chapter, rebranded, refreshed, and more ambitious than ever, under our new identity, Robust ICT. Derived from the Latin “robustus” meaning firm, solid, and enduring. Robust represents the structural integrity of the solutions we provide.

Our principles are Integrity, Commitment and Transparency. We honor every commitment with honesty and discipline, stand by every project end-to-end, and maintain clear pricing, open communication, and honest technical advice.

We power the modern world through end-to-end solutions across Data Centers, Hospitality, Railway Projects, Power Stations, Airports and Oil & Gas.

SEITECH SOLUTIONS – ENGINEERING, DIGITAL & AI SOLUTIONS
